

Free Smoke Detector Program

*Sponsored by the
Robbinsville Division of Fire*

Smoke detectors save lives. Smoke detectors and batteries are available at no charge for the protection of Robbinsville Township households and adjacent communities. This program of providing detectors is an effort to increase the personal safety of residents in their homes. The detectors can be installed by Robbinsville Township fire fighters (if your household is located within Robbinsville Township) or picked up at the fire station. Existing detection devices can be inspected and, if needed, recommendations made for increasing personal safety.

The goal of the Robbinsville Division of Fire is to adequately protect all households with smoke detectors.

For information or to obtain a detector(s) contact:
